**CHICOPEE**®

## Challenges

Dust and dirt build-up is inevitable on every kind of hard, smooth floor or surface and the Trust has multiple areas of flooring like this.

Not only unattractive, dust and dirt are unhygienic, and may be the cause of allergies or more serious health and safety problems.

Previously, the Trust were using a common microfibre alternative but after hearing great reviews about the Stretch 'n Dust from other healthcare sites, they decided to give it a go.

## Solution

So, what's the solution? Chicopee's unique disposable floor wipe has several advantages over traditional mopping systems:

- Superior dust and dirt pickup
- Environmentally friendly
- Ensures a healthy way of cleaning

## Results

"I just wanted to express the views of some staff who have trialled the orange conditioned oil cloths for hard flooring. They have really worked well with visible evidence. We have found they glide across the floor allowing the cloth to pick up minute dust particles and despite having to do this a couple of times it leaves the floor with a mirror like glow.

Over time it gives the impression of a well-polished floor, and therefore using this type of floor cloth has reduced the need for rotary polishing.

I would recommend this floor cloth for hard flooring and I am hopeful to expand the usage of these cloths to other hard floor areas."

### Julie

Domestic & Housekeeping Manager

“

It gives the impression of a well polished floor. Using this type of floor cloth has reduced the need for rotary polishing cleaning jobs.
